All the right connections

Care

Care Connection for Children, sponsored by the Virginia Department of Health, is a statewide network of regional programs that provides health care coordination, community support and resources to children with special health care needs.

Connection

The team-based approach pulls together case managers, medical personnel, educators and family members to determine how children with special health care needs can reach their maximum potential.

Care coordinators connect families with:

- ♥ Local health care providers who have expertise with children with special health care needs
- ♥ Health care payment options
- ♥ Resources from the community
- ♥ School programs and services
- ♥ Other families experiencing similar situations

For children

Care Connection for Children is for children who:

- ♥ Live in Virginia
- ♥ Are under age 21
- ♥ Have a diagnosed physical disorder that is expected to last 12 months

If a child in your family has special health care needs, please contact:

Central Virginia Care Connection for Children

P.O. Box 980021

Richmond, Virginia 23298-0021
